Refugees start arriving in large numbers

DO NOT EVEN TRY TO READ!

See that is the real threat. Not migration in itself, but that sooner or later Islam religion will be dominant in Europe if things go on as they are now" Non of us will be buried by priests because there will be no churches...just mosques"

²40 million black-africans and arabs are waiting to come over to Europe as soon as possible. And they will soon...look at the white Europeans reproduction rate in Western Europe and compare it with the reproduction rate of africans and arabs in Western Europe. A little trend analysis and 50 years later you can see that it is over for Western European civilization²Hungary is already blessed with nine hundred thousand descendants of tanned migrants who arrived earlier, who we support like slaves, unwillingly"

²There are thousands living in poverty right here at home! We should be helping them! Why does a foreigner deserve more than our own citizens? Who will explain to the homeless sitting on the top of underpasses, that sorry...we don't help you..."²Question: We have money to help migrants, but not for hungry children?"

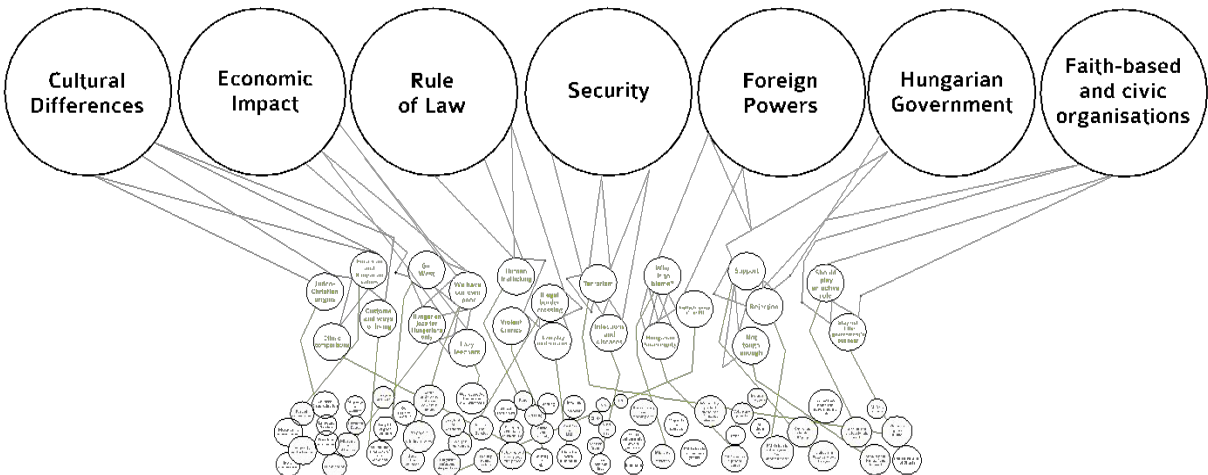

How many of them do you think actually work in Denmark, Sweden and the rest of the places? And how many do you think live off of generous aids?"²Germany will hand pick the creme of the crop (those who speak languages, are educated, those they can use) and the rest of the rejects will be handed down here"²Many people like to reference to the 1956 Hungarian emigrants, who were admitted to Austria. You could not find a worse parallel if you wanted. The Hungarians, 56 actually acted as refugees and not illegals. They sought contact with the authorities, they tried to gain refugee status, were locked for months in camps with very dire circumstances, and after several months of waiting could prove themselves and get a job or move on. No make a fuss, did not throw out of Bologna sandwiches in the trash and did not demand their rights. They were grateful of their host nation, that granted them protection in the most difficult times. Something similar to what we would expect from the „refugees" as well."²They pay the traffickers with wads of cash from their pockets"²Serbian traffickers have stationed themselves in Budapest"

²95% of the traffickers are gypsies, you should read the article on kuruc with the pictures!!! They do it together with the cops. It is big-big money, you can't even imagine how much"

²these are the communities that mean the greatest crime risk. Of course you can't prove this with statistics because that would be un-PC but just sit down and have a talk with an Austrian, German, Belgian, British, Italian or French etc cop and they will tell you."

²they attacked the police officers in Debrecen and destroyed the whole neighborhood...they pushed cars over and lit trash bins on fire"

²And typhoid fever, AIDS, hepatitis galore, scabies, worminess, etc. I wouldn't let one in my car for 30 thousand euros even. I remember they taught us things at the Interior some forty years ago, what relations you should be careful of if one is white. I have not slept well for days.² And I wonder who brings these long forgotten illnesses. Like my kid had scarlet fever...they asked me an interesting question. The question was the following: have you had contact with any ~~one~~—s recently? My answer was yes."²The union failed practically. This week France, Switzerland, Austria, Germany pissed around their territories and that's it. The rest of the periphery is being commanded by administration."²and the EU just fucking watched. And we actually do things. And then they will have someone to blame, that's why they are not doing shit. We should just leave."²We want to protect ourselves from those coming against us!!!!... Orbán Viktor, HU's prime minister is very right to take migration matters into that affect us into our own hands"

"95% of the traffickers are gypsies, you should read the article on kuruc [political news website] with the pictures!!! They do it together with the cops. It is big-big money, you cant even imagine how much"

"They will suck our blood like the gypsies"

"Hungary is already blessed with nine hundred thousand descendants of tanned migrants who arrived earlier, who we support like slaves, against our will"

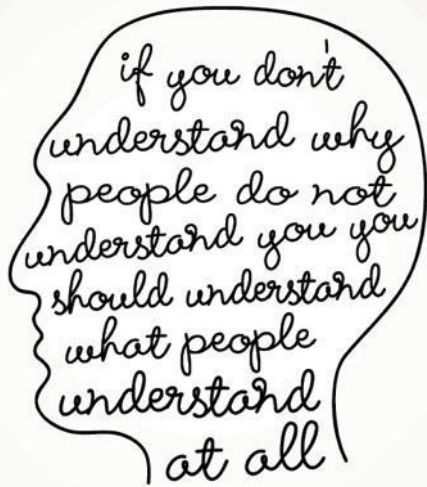

Weekly mentions of Roma in the refugee conversation
